EXPERIENCE

The Juilliard School, New York, NY — *Assistant Technical Director*

FEB 2024 - PRESENT

- Technical designed and managed opera productions with \$20K budgets and drama productions with \$10K budgets, completing projects on time 100% of the time and within budget 90% of the time.
- Developed technical systems, project paperwork, and production build schedules establishing efficient planning and execution in a fast-paced, densely packed production schedule.
- Supervised a build team ranging from 5-10 carpenters and coordinated logistics across the production department, ensuring safe and efficient fabrication, installation, and monthly load-ins.
- Oversaw automation and counterweight rigging systems during maintenance periods and monthly load ins, upholding safety protocols across multiple venues.

TexARTS: Theatre & Academy, Austin, TX — *Seasonal Technical Director*

JUNE 2024 - DEC 2025

- Produced 2D and 3D drafting for five professional and four youth musical productions remotely, providing structural fabrication and scenic installation knowledge to the onsite team.
- Collaborated with scenic designers to ensure productions stayed within budget while maintaining design integrity.
- Procured materials and mentored production carpenters on industry-standard theatrical construction techniques.

The Juilliard School, New York, NY — *Staff Carpenter*

OCT 2023 - FEB 2024

- Fabricated scenic elements using theatrical construction techniques, including woodworking, steel fabrication, and MIG welding.
- Assisted with load-ins and strikes for 10+ productions across drama, opera, and dance, ensuring adherence to safe work practices and stage safety protocols.
- Operated and maintained counterweight rigging systems, including insulation and hardware, supporting complex scenic movement and safe rigging procedures.
